Shirley:

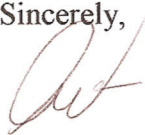

Sorry it has taken me so long to get back to you – here is my letter of recommendation:

Shirley did a great job. Without her help and expertise I probably would not have purchased such a great house. I trusted her from start to finish in purchasing my home.

I gave Shirley one day to find a house and she accomplished not only that but she followed through with help in finding me financing, insurance AND she also did the closing without me as I could not be present.

Thank You, Shirley, for making this purchase an absolute delight.

Sincerely,
