Subject: letter of recommendation

Hi Shirley,

I hope that you are doing well and have been enjoying your Camry. This last year has gone so fast!

I want to let you know that we are very comfortable in our house, and I know it is because you were so patient with us. You listened to all of our needs and our nice-to-haves and only showed us houses that fit our situation. I remember you asking several times if the yard would work for our dogs (which was a big priority for us) and I really appreciate that! Your professionalism and honesty throughout our home buying process made me comfortable and confident with our decision. It was like working with a close friend!

Please feel free to share my email address or phone number with potential clients - I would be happy to discuss my experience working with you.

Thanks again,

MGK
